These loans are offered with several term options with as little as a 5% down payment.

Features include:

- Fast turnaround on application
- No application fee
- Owner-occupied property only
- Competitive rates
- Local mortgage servicing

Our most popular mortgage products are fixed-rate and adjustable rate mortgages:

### **FIXED RATE MORTGAGES**

Most consumers are familiar with traditional mortgages. The rate is determined at the start of the mortgage term and does not change for the life of the mortgage, nor is it subjected to rate fluctuations. Several payment terms available.

### **ADJUSTABLE MORTGAGES OR ARMS**

Adjustable Mortgages (ARMS) are a good alternative mortgage for the member who initially needs a smaller monthly payment. ARMS usually have rates lower than fixed rates and, therefore, you may qualify for a larger loan.

Additional features include:

- No pre-payment penalty fee
- Protective rate caps

## **HOME EQUITY LINES OF CREDIT**

Tap the unused value of your home for important purchases such as home improvements, school tuition, vacation, or any other purpose you choose. Write checks from your line of credit as you need them during the draw period and pay just the interest due. At the end of the draw period, principal and interest payments are required.
